DAY 1

Juneau - Tracy Arm Fjord

44nm

3h 15m

Juneau is the capital city of Alaska, located in the southeastern part of the state. It's a unique city because it is one of the few state capitals in the U.S. that cannot be accessed by road. It is only reachable by boat or plane, which adds to its charm and remoteness. After arriving at Juneau International Airport, you will be greeted by Captain Liam and Bosun Dan.

Once all guests are onboard and the safety meeting has been completed, Unbridled will start the passage to Tracey Arm, heading south through Stevens passage. Once at anchor keep an eye out for bald eagles and hopefully some hungry brown bears searching for salmon.

DAY 2

STATIONARY

Tracy Arm Fjord

The Tracy Arm fjord is accessible only by boat or seaplane. It is a wonderful place to visit and should be included in any charter in the region. It is a place to view some marvels of nature from the water, surrounded by mountain peaks and waterfalls. Apart from the two glaciers, North and South Sawyer which are major spectacles themselves, you will see much land and marine life. On land you will probably see bears, wolves, deer and goats. Because the ice interferes with whales' communication, it is a good spot for seals to have their pups. Above these spectacles you will see majestic eagles and other minor birdlife flying around. The glacier is live, in that it is flowing and "calving" or losing pieces of ice into the water. You will enjoy the stillness and the sounds of the ice if the boat's engines are turned off. A loud and memorable crash normally accompanies larger pieces of ice hitting the water. In the water and on the ice flows you may see whales, orcas and seals of various sizes.

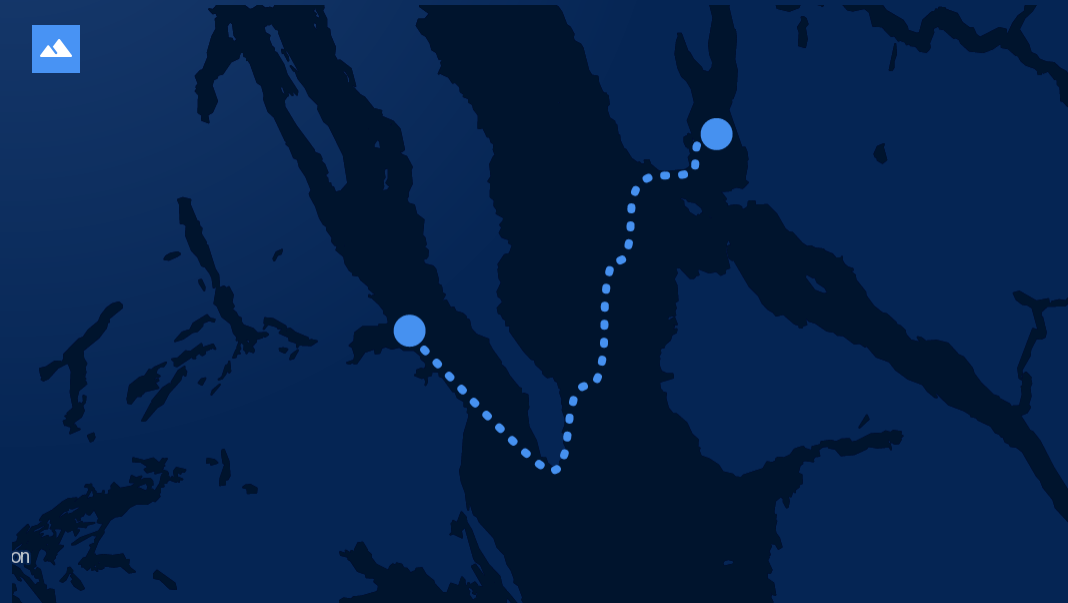

DAY 3

Tracy Arm Fjord - Mole Harbour

 28nm  2h 5m

After breakfast we will make our way to some of the best fishing in southeast Alaska! Enjoy salmon and halibut fishing at Point Hugh! Our Chief Stewardess Sam will be waiting back on the boat with cups of hot chocolate and coffee ready to warm you up.

Once dinner has been caught we will make our way to Mole Harbor. Mole Harbor is a small, secluded bay or inlet located on the coast of Alaska. It boasts a quiet, secluded anchorage with an abundant of wildlife such as whales, seals and sea otters.

DAY 4

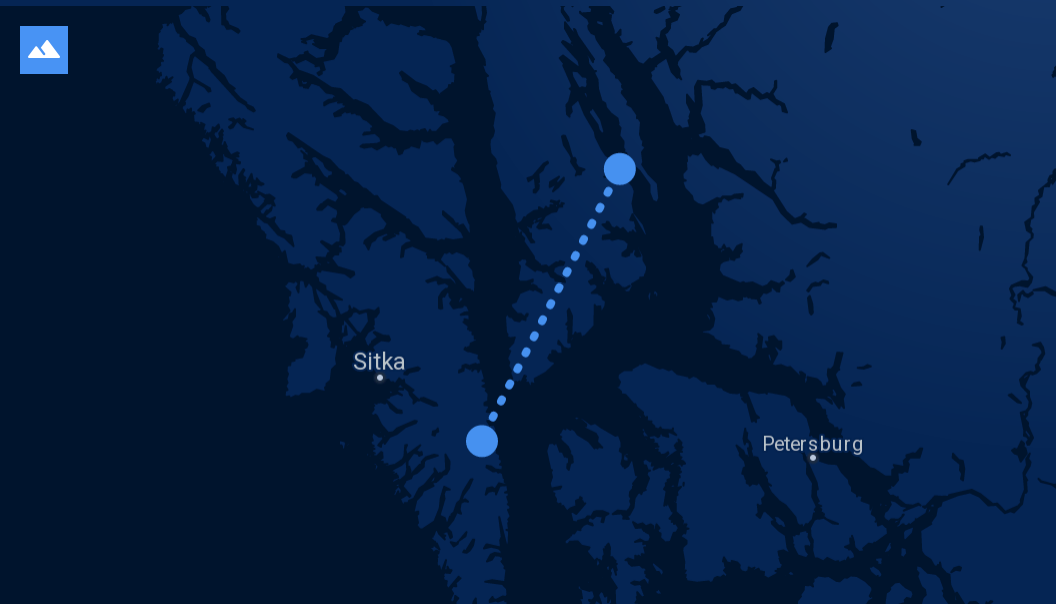

Mole Harbour - Red Bluff Bay

 54nm

 4h 5m

After a morning of whale watching with your favorite coffee we will make our way to Red Bluff Bay. Red Bluff Bay is a beautiful and remote bay located on the western coast of Baranof Island. It is one of the more scenic and ecologically rich areas of the region, famous for its stunning landscapes, abundant wildlife, and outdoor recreational opportunities.

Allow our crew to show you all the wonders Red Bluff Bay has to offer you! From birdwatching, looking for Grizzly bears, kayaking and fishing on the HCB with Dan, our crew has you covered.

Sitka

Petersburg

DAY 5

Red Bluff Bay - Baranof Falls

13nm

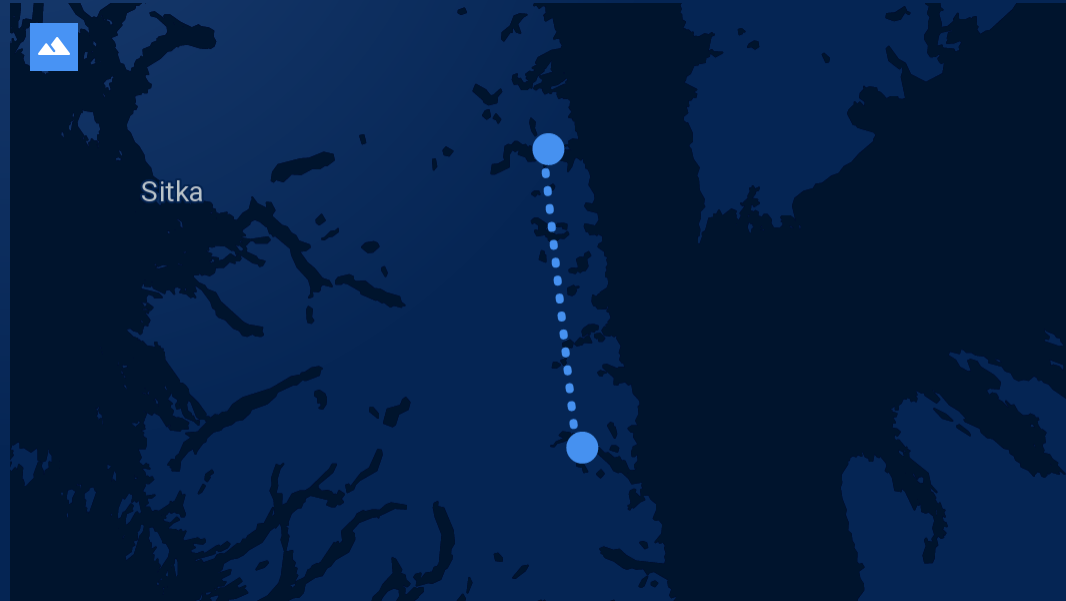

1h0m

Just a short passage up the coast lies Baranof Falls. The perfect place to unwind, this area is outstanding natural bliss - boasting no less than nine warm silky hot spring pools beneath a long veiling horsetail waterfall. The raging Baranof River pulses through and the surrounding rocks and trees create a stunning backdrop and shelter from the sun. To the edge of the steamy pools, you will also find a natural coldwater plunge - perfect for a refreshing dip after soaking tired muscles. There's also a public bathhouse and hiking trails close by to truly immerse you in the full Alaskan wilderness experience.

Sitka

DAY 6

Baranof Falls - Pavlov

 57nm

 4h 15m

Once you're awake, we'll start the engines and head toward Pavlov Harbor. While underway, enjoy a hot breakfast prepared by our amazing chef, Calvin.

Pavlov Harbor is a perfect spot for charter guests to catch sight of grizzlies. North on Alaska's Chatham Strait and sitting inside Freshwater Bay you will find the anchorage of Pavlov Harbor. Flanked by rising mountains and mist, this is prime bear viewing territory. In this spot, you can see bears fishing for salmon in the thundering river. Boat trips to get to a safe distance for bear viewing are available via tender or kayaking.

SunEAU

Petersburg

DAY 7

Pavlov - Juneau

 76nm  5h 40m

After an overnight passage you will wake to find yourself back in Juneau. The nutrients provided by the glaciers attract humpback whales and orcas which are a must see. Enjoy your last breakfast on the bridge deck for a stunning view and chance to see some humpback whales or Orcas.

Transportation will be arranged and two of our crew members will also accompany you to the airport to make sure you have a smooth transition from the yacht to your aircraft.

We thank you for joining us as we share the magic of Alaska with you!
